Description: Signed statement of

File No. 65-4074-1A-34

I, Jacob I. Fass, make the following voluntary statement to John R. Lyons and Louis G. Turner, who have identified themselves to me as special agents of the Federal Bureau of Investigation, U. S. Department of Justice. No threats or promises have been made to me for this statement and I know it can be used in a court of law. I have been advised of my right to counsel.

I reside at 367 Miller Avenue, Brooklyn, New York, and my place of business is at the Spruce Chemical ~~Company~~ Company, 177 East Railway Avenue, Paterson, New Jersey.

I made the acquaintance of Thomas L. Black when we were both employed at the National Oil Products Co. in Harrison, N.J. in 1938. I became better acquainted with him in about 1940-41, and between then and 1944 he confided in me that he had once been engaged in collecting technical information for the Soviet Union. This conversation concerning his activities took place in his apartment at 17 Oxford St., Newark, N.J. My impression was that he confided in me for two reasons. First of all, he felt the need to confide his secret to some one, and he considered me a very close friend. Then, in the course of telling me his story he revealed to me that he was in deathly fear that the OGPU would eventually try to liquidate him, and he asked me, if anything should ever happen to him, to inform an editor of Time Magazine. He pointed to the name in a copy of the magazine, and I did not remember it very clearly, except that ~~xxxx~~ the first name was unusual. When the Hiss case broke I realized that ~~this was the man Tom Black had referred to.~~ Whittaker Chambers was probably the man Black had referred to. He was quite dramatic about these revelations, and told me that he was the only man in the United States to have been awarded the Order of Lenin, though the medal was not delivered to him. It was a fantastic story, and he seemed to think that he had been important, while I felt that his estimate of his role was exaggerated.

As I understood it, his work consisted of gathering technical information from chemists and engineers employed in various commercial companies. Some of it he paid for, others furnished the information free, I suppose. In the course of the conversations we had on this subject I recall only the following incidents being mentioned. In the course of research on penicillin, we came across the name of E. W. Florsdorf, and Tom told me that

he knew him: that he had purchased a drying process from him on behalf of the Soviet Government. He mentioned a communist sympathizer at Calco, and I concluded myself that that person might have been another one of his contacts. He told me vaguely about the apparatus involved. I gathered that Chambers was one of his contacts, perhaps his superior. He said that there was a man on the top floor of the C.P. headquarters in N.Y. who directed the Soviet espionage in the U.S. His name was Brown or some such common name, and though the actual personage changed from time to time, the name remained the same. He also said that all Amtorg and other Soviet officials were engaged in espionage. Whether he knew this from personal contact with all of them or by extrapolation, and information gathered through subsequent contacts in the Trotskyite movement, I cannot say.

He had told me previously that he had left the C.P. in 1933 when they had failed to prevent the rise of Hitler. When he decided to cease his activities for the Soviet Union he realized what the consequences might be. In fact, he told me that when he refused to continue about 2 agents tried to forcibly remove him from the country, and drove him to the Canadian border, in Michigan, if I remember correctly. He escaped by telling them that they could not get away with it: that he would tell the border guards that he was being forcibly taken, and to his surprise the agents could not think of a stratagem to stop him from doing this and so released him. Thereafter he had lived in constant fear of his life. Now, as this had all transpired a considerable time ago, I was inclined to minimize his experience, and told him that at this late date it was unreasonable for ~~of~~ him to continue fearing the OGPU. He quoted to me the fates of other deserters from the Soviet camp, as Krivitsky, and others, who died under mysterious circumstances. I told him that he had not been bothered since, and that he was probably too unimportant for them to worry about now, especially since they were now ~~wiki~~ better recognized, and had to be more careful. It was my view that he had been less important than he had thought, and that if, with his known Trotskyite background since then, he had not been molested, he was probably past danger. Nevertheless, he continued to worry. One day, when I was at his apartment, he got a phone call from some party, and when he hung up he said that it was some one he had known in the past, and that he feared that this person was a representative of the OGPU who wanted to see him again. My impression was that it was a person whom he had known as a communist, though he was not certain that this man was actually involved in espionage activity. I told him to forget about the call, and as far as I know ~~h~~ there was no further development along this line.

At the time I met Tom Black he was a member of the Socialist

Workers Party, and had been, as I understood it, since 1933. He remained a member until at least some time before he moved to Philadelphia. To the best of my knowledge, in all of his time in Philadelphia he was no longer active politically, but was a disillusioned former radical. In many conversations between us he explained to me why he had quit the C.P. and what was wrong with their policies. He left in 1933 because he felt that they should have been able to prevent the rise of the Nazis, considering their great strength in Germany at the time. His feelings ~~xxx~~ were that the mission of the C.P. was to sabotage any real growth of communism or socialism. The views he expressed to me were those that any socialist or Trotskyite might have given regarding the role of the C.P. : their use of labor unions, front organizations and other groups merely as instruments of Soviet policy, and not for any sincere purposes of improving the lot of the workers or people. While working at his apartment I came across some Kodachrome slides of Trotsky, and he revealed to me that they were pictures that he had taken when he had visited Mexico. I gathered that they were shown at meetings of the S.W.P., and that Tom was an important member of the group, if for no other reason than that there were so few of them. He told me of his trip to Mexico - by plane, I believe - and his visit with Trotsky. One night, in the presence of Charles Freefield, [he showed me the pictures of Trotsky ~~in~~ with a slide projector, along with other pictures. Most of them showed Trotsky tending his pet rabbits. On one occasion he ~~had~~ took me on an outing of the SWP to Lake Hopatcong. It was a small group, and every one seemed to know Tom very well. He was called Tom. For all I knew most of the others were using aliases. Among the group was Betty Morrow, the wife of Felix, who was in jail at the time as a result of the Minneapolis trial. After the swimming there was a brief seminar, at which a man named George [I forget his full name] gave a talk which was on theoretical economics. There was almost no discussion. It was obvious that Tom was on good terms with all of the members present.

On one occasion Tom gave me a book, written by one of the S.W.P. leaders, giving a history of the Spanish Civil War. He said it would explain how the communists sabotaged the loyalists. The details of this were too complicated for me to follow. It was clear to me, though, that he was a thoroughly sincere Trotskyite, and a severe opponent of ~~in~~ the Communists. He always maintained that he was a communist with a small "c".

I knew that Harry Gold was a good friend of Tom's. On about 3 occasions I met Gold, and he seemed an affable fellow,

who talked almost exclusively of chemistry. As far as I knew, and as far as Tom knew, Gold had no political interests whatsoever.

When the news of Harry Gold's arrest was published Tom told me how shocked he was. He could not understand it, for he had known Gold as a gentle fellow, and a loyal friend. He could not conceive of this man whom he had known as being guilty of the acts with which he was charged. Because he had known him so well, the ~~shock~~^{shock} shock was very deep.

~~Several weeks after Gold's arrest, and after the F.B.I. had revealed in an interview that they knew about this, Tom told me that he had been told by Gold a few weeks before his arrest that Gold was the man being sought as the contact of Klaus Fuchs. [The time had been one night when he had gone to pick up a radio at the apartment of my cousin. He was home early, and so could not have spoken to Gold for more than a few minutes.] All I could say to him was "Now you tell me." It was too late to do anything now.~~ JJ

Several weeks after Gold's arrest, and after the F.B.I. had revealed in an interview that they knew about this, Tom told me that he had been told by Gold a few weeks before his arrest that Gold was the man being sought as the contact of Klaus Fuchs. [The time had been one night when he had gone to pick up a radio at the apartment of my cousin. He was home early, and so could not have spoken to Gold for more than a few minutes.] All I could say to him was "Now you tell me." It was too late to do anything now.

From my intimate knowledge of Tom Black I feel that he broke completely and unequivocally with the C.P. and the Soviet Union in 1933. He immediately joined the Trotskyite movement, so that ~~that~~ he could not have continued working for them much beyond that year. Aside from nodding to former acquaintances from the C.P. who did not know of his break he had no contact with members of the C.P. except accidentally or socially. In the course of numerous conversations he convinced me of the depth and sincerity of his anti-soviet feelings. I cannot imagine even the ~~most~~^{most} cleverest spy feigning a hatred for the C.P. in such compete detail and with such evident fervor. Since my own aversion to the Soviet system was strong, he was happy to reinforce it with detailed arguments drawn from his experience in the radical parties. In the years 1945 to now, when we were in Philadelphia, I knew almost every step he made, and where he was at almost every time of the day, and to the best of my knowldge he engaged in no political activity of any sort. His contacts with the Trotskyites were limited to personal gossip of former acquaintances. He had no contacts in Philadelphia. However, his hatred for Stalinism continued, and does to this day.

I never suggested that Black tell the authorities about his activities on behalf of the Soviet Government for the following

reasons. First of all, no government documents were involved. He had only transmitted commercial secrets, which at best or worst could help Russia build her economy. Secondly, at the time he had helped them, Russia was a struggling backward country, and not considered a menace to this country. Only dedicated socialists and Trotzkyites considered her a menace ~~then~~. Finally, it had happened in the past, and the agents involved had probably long since been recalled, according to his own testimony. Further, he felt that Whittaker Chambers, who had been in a much more responsible ~~man's~~ position, could have told more than he, and it did not seem he could contribute anything of value.

As for the reason why Tom did not turn Gold in, he told me that he could not do it, because he considered Gold a friend. My view is that Tom, who is given to deep emotional feelings, had this strong feeling of a friendship for Gold, and could not bring himself to realize that the admirable fellow he had known had another aspect to his personality. He could only remember the Gold he knew. Perhaps on further reflection he would have recognized the other aspect of the man, and taken action. But Gold was arrested before he could come to any decision.

I have personally typed the above statement, consisting of 5 pages, and it is true and correct.

Fass interview

(9/17) Jacob J Fass

1943-44

Black confided in Fass at Hcot. as if that he had been some friend. Told as very important matter. Fass surprised - (C. Phillips Oppenheimer at title) Floerda, Carl W. - States on Pa. Ref - Patent on "Freeze drying Penicillin" mentioned as one source Black paid Floerda.

If anything should happen to him, he should notify W. Pittaker Chambers - make him the attorney - OGPW told after him - Fass thought his fears were unfounded about OGPW.

Dr. Kravitsky stayed in - then in - news and had Black worried. Black stated he was only man in US to receive the Lenin medal (still in Moscow) - Fass pointed out that Kiss had also received.

Black told him a perhaps a temptation made in Mich about time she spent Soviet. was worried also about phone calls.

Had Pittaker lab at Oxford appt. after both left NOPCO.

Black stated he knew Chambers -

was friend of Kapp - Kapp mentioned Meyer Shapiro when Fass knew.

~~Black said~~

Knew Black only toward end of cup at NOPCO (last 1 or 2 yrs), then worked in apt after both left NOPCO (on spray drying of penicillin - tank and patent)

Black received phone call at apt when Fass present which Black said was ^{probably a} ~~was~~ ^{some} agent, not an ordinary party number. Someone who wanted to see him. Black upset and dramatic and at this point Fass completely telling him not to overemphasize his fears. Black kept pointing out various violent acts of OGPU. Fass said they wouldn't dare.

Fass never learned when Black first went into espionage and nothing of early history. Mentioned he got info from a person at Calco - who may have committed suicide. Black never sought info from Fass.

Black not in esp in 1944. Fass learned when it was all over.

SWP
Infiltrated ^{SWP} on Soviet orders

Black told Foss everything. Foss feels Black was truly a Trotskyite Quint CP in 1933, was assumption, and Trotsky thereafter understood no Soviet work since 1933.

Catcher was present at meeting following Lake Trepan when Black stopped off at our house.

Black was well known in SWP in New York and gave impression of truly being a member. Freefield was Trotskyite, his brother Martin was CP, other Freefields were all political hussies.

Segessamen not involved to know Golda. Ronald Spangler "Declarator of the West" Doesn't know well. All this learned by Foss from Black in 1944 approx. Seemed fantastic at the time. Recent history.

Penthouse apt in NY was leader of esp ring. Patricia Brown was a name - none stayed same but person changed.

Never mentioned ^{any} strict contacts without place since 1933. Has discussed it recently but Black never indicated contacts recently or since 1933.

Foss knew Golda! Black never

~~Part 12~~

friends. For 4 weeks after Gold arrested, Black told Fess that Gold had told him of his involvement with Fess. ~~But~~ ~~Black~~ Feels that Black didn't turn in Gold because he just didn't know what to do.

If Black was a CP (Soviet) he was fooling Fess, who believes he was a real Trotskyite. Black always kept his political life secret from Sara Brown (Herscher) who was a Communist. Fess baited Sara often. Black never kept quiet when Sara talked politics.

In discussions all along, Black took an anti communist position to extent that he does not feel he could have fooled anyone.

Re Soviet contacts, Fess thinks Chambers was one.

Never discussed Black's report. In fact Black was interviewed by FBI. Black told Fess after FBI interview started.

Got info from Elsdorf (for pay) a dividend at Calco. Had impressive others were Engis, a chemist in various plants.

Fass never suggested Black tell
authorities because all was in distant
past and also because nothing
subversive. Helped Soviet industrially
but nothing really harmful.

Never mentioned peddling govt. documents.
Soviet could get what it needs from tech.
published articles - Black got some private
formulae.

Fass never thought there was any need to
report Black's activities. In early 40's Russia
was historically not a menace.

(Fass obviously tried to justify industrial espionage
by any country - showed knowledge of esp. laws
re type of info.)

Fass would look upon Black's acts quite
differently now - but since acts of Black were
so long ago he thought it was ok.

Fass admitted CP to be a menace but since it was
his changed mind. Regards CP persons as
"species of mutants" who, until psychologically
sured will always be a head of FBI - not
enough agents to track down all
the mutants in the country.

Black called Vera Hane from Spain
to learn if ~~he~~ ^{she} was involved ^{in esp.} ~~in~~
~~case~~. Heller was friend of Black who
thought Spain could make most pressing
complaints of Amer. Chin. and Paint (this
in 1944 approx). Black maintains contact
with Heller - Foss sees once a ^{time}.

Foss went as Sidney Shipman to
Lake Hopatcong with Black ~~and~~ SWP
Betty Morison (wife of Felix who was
in jail - Smith Act in Mich) was there.
George from Detroit gave lecture on
occasion. Knew Black was SWP.
Foss thought this was Black and dagger
stuff. Foss once attended Amer. League
for Peace and Democracy. Difference
noted. CP is volatile and excited, whereas
SWP at Lake was academic.

Black told Foss of intention to go
to Mexico. Foss saw pictures of
Trotsky together with Freefield.
Black took pictures himself
in Mexico. Black said he actually
went to Mexico and took pictures.

~~William Stople~~ ~~statement?~~
~~statement?~~

Adelle Hirsch (Graham) married negro
 she also married negro (Ray Brown) who
 made speeches with Bob Dean in Australia.

Black said he didn't know what members
 of CP were also in espionage.

Sara was expelled from CP for either being
 too popular with negroes (Jilans), or her son
 Nick Chase was jealous. Probably still
 a member at heart. still of course in a though
 communicated.

Foss never knew Alvin Stople.

Black told Foss everything in case something
 happened to him. Officially a facilitator.
 Larry Delalan was friend of Black.

Mentioned Joe Skilton, best friend
 of Heller in N.Y. Black afraid Heller
 will do same.

Dear Walter:

I am currently being asked to explain my association with Thomas Black who, our Security Division states has admitted involvement with an atomic espionage ring. As you know, I sublet Black's apartment for a short period in 1946 and he told me that on my departure, he was subletting it to you. I feel sure that your association with Black was as innocent as mine was and I request that you give me a statement, preferably notarized, to the effect that you sublet the apartment and had other contacts with him without being aware of any disloyal acts or attitudes on his part. I am asking others in Nopco who also knew Black without being aware of his secret life to furnish me similar statements.

Sincerely

John J. Downing
